Product details

Name	Myfenax
Agency product number	EMA/H/C/000884
Active substance	mycophenolate mofetil
International non-proprietary name (INN) or common name	mycophenolate mofetil
Therapeutic area	Graft Rejection
Anatomical therapeutic chemical (ATC) code	L04AA06
Generic	A generic medicine is a medicine which is similar to a medicine that has already been authorised (the 'reference medicine'). A generic medicine contains the same quantity of active substance(s) as the reference medicine. Generic and reference medicines are used at the same dose to treat the same disease, and they are equally safe and effective.
