## Datos Generales del Producto

| Expediente Sanitario | 20088083                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Nombre producto | NATURATM STOMAHESIVETM CONVATEC MOLDABLE TECHNOLOGYTM POST-OPERATIVE/SURGICAL OSTOMY SYSTEM - SISTEMA DE OSTOMÍAS DE DOS PIEZAS CON TECNOLOGÍA MOLDEABLE QUE INCLUYE: BOLSAS, ADAPTADOR PARA LA REDUCCIÓN DE PRESIÓN Y BARRERAS - NATURATM, STOMAHESIVETM, CONVATEC MOLDABLE TECHNOLOGYTM | | Usos      | EL SISTEMA DE OSTOMÍA DE TECNOLOGÍA MOLDEABLE DE DOS PIEZAS NATURA ESTÁ DISEÑADO PARA EL MANEJO DE DESCARGAS DEL ESTOMA; Y REQUIERE DEL USO DE UNA PLACA O BARRERA CUTÁNEA EN CONTACTO CON LA PIEL (DURAHESETM/ STOMAHESETM SKIN BARRIER), QUE ES COMPATIBLE CON LAS BOLSAS NATURA, CON CIERRE INVISICLOSE Y CON LAS BOLSAS DE VÁLVULA ACCUSEALTM. ESTE SISTEMA TAMBIÉN INCLUYE UN ADAPTADOR (LOW PRESSURE ADAPTOR) QUE PERMITE REDUCIR LA PRESIÓN HACIA EL ABDOMEN. | Riesgo                 | I             |
