

OLYMPUS

EndoTherapy™

WARNING Before use, thoroughly review the manual and use the instruments as instructed.

This instrument has been designed for use by physicians or medical personnel under the supervision of a physician. In certain cases the use of this instrument could lead to perforation or hemorrhages and may require surgical intervention as an emergency measure.

Only use this product if you have received appropriate training in order to develop the understanding of the clinical application and the proper use of this product.

For information on training and other information material please contact OLYMPUS.

See instruction manual for further information.

 Refer to instructions.
